EXOVA

Description: Felt made of textile fibres, bonded by cured duroplastic resin, optional with flame-retardant. If desired with adhesive on one side (100% or in stripes).

Application: Recommended as to SOUND Absorption and THERMAL insulation material. It is well applied in Automotive Industry, Commercial Vehicles Agriculture Machine, Household appliances, Domestic air-conditioning.

Finishing: Upon request, is available with technical flies, Aluminum foil, Self adhesive.

Weight: From gr. 600 Sqm to gr. 2.500 Sqm

Thickness: From 6 a 30 mm

Thermal conductivity: $0,035 \frac{\text{K ca}}{\text{m h } ^\circ\text{C}}$

Working temperature: From -30°C to +100°C (*Material plain*)

Fire resistance: ISO 3795: Selfextinguible, flame propagations speed $\leq 100 \text{ mm/min}$. Euroclass – CEN/TS 45545-2:2009 Hazard Levels HL1-HL2-HL3

SOUND ABSORPTION TESTING

ACUPOR SOUND ABSORPTION ISO 354
