EXOVA

**Description:** Sound absorption material. Composed of synthetic fibers, 100% polyester thermo-bonded fibers. non-toxic, non-irritating, 100% recyclable.

**Application:** Solution for the improvement of the environmental acoustic comfort. Thanks to the aesthetic personalization, obtained with a lamination in one or both sides of our polyester fire resistance fabrics, type **TREVIRA CS** base, available with 48 different colours, that surely allow to satisfy the most stringent demands.

**Finishing:** Fabric **TREVIRA CS** in one or both sides. Weight g. 300 Sqm.

**Density:** From 10 to 100 Kg/m<sup>3</sup>

**Thickness:** From 5 to 100 mm

**Fibers diameter:** 33 micron medium

**Working temperature:** From -40°C to +80°C

**Fire resistance:** Euroclass - EN 13501:2002 Class B x fire - S1 x smoke, drop no. d0
